

The doors to the Centre may be closed currently, but the National Space Academy team are still hosting, developing and creating online opportunities, as well as working with partner organisations to look at brand new programmes for the future.

We are hosting an online Year 12 careers event this week, which is free to attend and will include speakers from the Royal Aeronautical Society, Lockheed Martin, University of Leicester, the European Space Agency, and Space Applications Catapult.

Full details can be found below, including an opportunity for schools to win a free online year 12 Physics masterclass.

### **National Space Academy Careers Event**

**KS5 / Year 12**

**Free Online Event**

**28 November 13:00-15:30**

The National Space Academy, with the support of the UK Space Agency, is bringing its annual Year 12 careers event online! This online event is aimed at 16-17 year olds based in the UK. Teachers and careers advisers are also welcome.

**The school to have the most students attend, and complete the evaluation form, will receive a free 2 hour online year 12 Physics masterclass (to be taken within the academic year 2020/21. T&Cs apply).**

**[Book Now \(essential to participate\)](#)**

### **PPG Chemistry Education Project**

**Online Pilot Masterclasses for Years 5 - 8**

Why are rockets pointy and why are they usually so tall? What do we use rockets for?

Students will discuss these questions during our online PPG chemistry masterclass, view exciting demonstrations and take part in hands on practical activities. This masterclass will last for around 45 minutes.

**Schools with more than 17% of students eligible for free school meals can apply to take part in 2020's PPG Chemistry Education Project Masterclasses ONLINE for free. *Subject to availability.***

**[Register your school for a Masterclass](#)**

**That's all from us. If you have any questions or want to get involved with a project, just drop an email to [nsa@spacecentre.co.uk](mailto:nsa@spacecentre.co.uk) and we'll get it to the right person :)**
